Make the city your home

London's success depends on the middle income people who make it tick. Pocket helps these 'city makers' to own a home in London. Not just a share of a home, but 100% of their own flat, in a building full of like-minded people.

Our homes are for first time buyers who are priced out of most private housing, and 'salaried out' of social housing. They work in the public and private sectors, they are singles and couples, they're young and not so young. All are determined to buy their own place.

Anyone who currently lives or works in Lambeth, is not already a home owner, and has a current household income below £90,000 can apply to buy a Pocket home in Sail Street and Juxon Street SE11.

The Pocket Living story

Pocket Living is a private developer of affordable housing across London. We sell compact one bedroom apartments to 'city makers' – the middle income people who make London tick.
